## VERDICT: UNCERTAIN

**Confidence:** 50.0% | **Gating Trigger:** style_lexical_split
**Policy Category:** Abstain (Stylometric vs Lexical Split)
**Explanation:** Base models split on verdict with stylometric RF expert dissenting (RF P(FAKE)=42.1%, but LR=69.5%, LGBM=91.1%, XGB=93.9%). Lexical and semantic models key on out-of-domain vocabulary while stylometric expert dissents.
